Total Number of Credits, including from previous page (12 required):		Click or tap here to enter text.	

*If course is required for your degree program, it can't also count toward the certificate. EH students can't take EH 570, and GEH students can't take EH 571 toward the certificate.

Integrated Learning Experience (ILE)

To be eligible for the Climate and Health Certificate, the student's capstone or thesis must have a climate-related topic as its primary focus. Attach another sheet for the ILE description if necessary. Please provide a copy of your final thesis/capstone via the certificate Canvas site prior to graduation.

The student completed a: Choose an item.

Title: Click or tap here to enter text.

Thesis Advisor(s) or Capstone Mentor(s): Click or tap here to enter text.

Project description and how it relates to climate and health:

Click or tap here to enter text.

Applied Practice Experience (APE)

Though a climate-related Applied Practical Experience (APE), or practicum, is not required to obtain a Climate and Health Certificate, we strongly encourage students pursuing this certificate to use their APE to either develop more substantive experience with climate change and/or to gain more experience with tools that can be applied to future work on climate and health.

APE was related to climate and health: Choose an item.

Organization: Click or tap here to enter text.

Brief Description of Related Tasks:

Click or tap here to enter text.

I certify that all of the above information is correct and that none of the classes entered to count toward the certificate counted toward my degree requirement.
